PROFESSIONAL EXPERIENCE

● Software Engineer, Intern

VIASAT, CARLSBAD, CA   **June - August 2018**

- Developed a simulator to remove dependency on $2M worth of hardware
- Used Java and C# to build robust copy of several key external components
- Reverse-engineered entirety of sparsely documented communication protocol
- Reduced training time by 70% for application users

● Computing Consultant, Team Lead

STANFORD   **2017-2019**

- Coordinate and instruct CS1C, a Stanford introductory computing course
- Train and manage a team of twelve other RCCs
- Manage Stanford's network database system

● Software Engineer, Intern

KPIT TECHNOLOGIES, PUNE, INDIA   **June - August 2016**

- Developed an interactive visualization for a graph database using D3.js
- Learned Javascript and gained experience with a massive codebase
- Now used in Chrysler's R&D department to manage testing data

● Waterski Instructor

STANFORD SIERRA CAMP   **June - September 2017**

- Part of a team generating $20K a month in revenue
- Drove and maintained the speedboats, including engine maintenance
- Definitely as cool as it sounds
